This certificate attests that all the relevant characteristics of the constituent elements and the standard configurations of the scaffolding system, declared by the manufacturer in the Product Manual code A.M. N.23781 / OM-4, edition no.1 from 11/12/1997, are in accordance with the requirements specified in the reference standards

**EN 12810-1:2003, EN 12811-1:2003**

ICECON CERT carried out verifications regarding the characteristic performances (load capacity, positional stability, safety in operation and durability) of a scaffolding system representative for this products family, and performed the evaluation of the manufacturing process and the applied factory production control. ICECON CERT shall perform the continuous surveillance of product conformity by monitoring the factory production control.

Applicable conformity scheme: 3, according to EN ISO/CEI 17067:2013.

This certificate was first issued on **2<sup>nd</sup> October 2020**, modified on **17<sup>th</sup> December 2020** and will remain valid until **1<sup>st</sup> October 2023**, as long as the requirements specified in the reference standards, the constructive solution, the characteristic performances of the scaffolding system constituent elements, the intended use, the manufacturing process and the applied factory production control are not significantly modified, unless it is suspended or withdrawn by the certification body.
